*Benchmark	Composite Asset Allocation Benchmark
Minimum Investment:	R10 million
Fees:	30bps

*The fund aims to track the components of the benchmark. Please refer to the table alongside for further details of the benchmark

INVESTMENT DESCRIPTION

The Balanced Index Fund is a fully diversified portfolio investing in a mix of local and offshore equities, listed property, interest bearing assets (including inflation linked bonds) and cash.

The fund invests in funds targeting the return of an index. Index funds offer the benefits of substantially lower fees and significantly reduce the uncertainty of fund performance relative to the market. Lower fees and efficient investment indexation processes minimise the tracking error on the overall returns.

INVESTMENT OBJECTIVE

Through a well-diversified mix of asset classes, this fund aims to deliver long-term growth while limiting the volatility in returns. The portfolio is Regulation 28 compliant and rebalanced, in line with its strategic allocation, in March every year. Rebalancing the portfolio annually keeps trading costs to a minimum while ensuring that the portfolio partakes in the intended combination of returns originating from each asset class. The fund has a long-term real return target of 5% (CPI+5%).

RISK CHARACTERISTICS

This is a moderate risk fund exposed to share price, interest rate and currency fluctuations. A balanced, diversified portfolio across local and global asset classes helps lessen these fluctuations.

SUITABLE INVESTORS

This fund is suitable for investors wanting moderate to high long term growth with less volatility than pure equity.

INVESTMENT TEAM

The Fund is managed by the Indexation investment team within the Customised Solutions boutique.
